Know me MORE

I'm a Graphic designer based in India, specialised in **UIUX and Wordpress Developer**. I help Brands to create a Online presence through my **Creative designs and thinking**.

I started Designing in 2020 in Lockdown through online learning platform Youtube later when I realised I am good at it I enrolled myself to several online courses on udemy. After learning and practicing design, I started working with clients by the end of 2020.

I on the way, have worked with more than 25 clients on diffrent type of projects. I Understand the Value of branding and understand how design works for buisness.

I have a keen Interest in Photography and love to Play Minecraft & other Video games in my free time.
